

Abundant Life

Soothing spaces, grounded in comfort. This high performance broadloom collection makes healthcare settings feel more like home. Designed to meet the exacting demands of healing spaces while bringing safety and security for patients, staff and visitors alike, it's carpet for life. And then some. *Design is abundant.*

A feeling of home

Here is where form and function reside. Where quiet texture softens the view. Where the sounds of hallway conversations, footsteps and equipment are dampened down. Where a carpeted path cushions falls and provides slip resistance, reducing leg fatigue and boosting patient mobility. Here is a healing environment that's more like home.

*High performance cradle to cradle technology. From front to backing.**
